

INDUSTRIAL INFRARED OIL HEATERS ECONOMIC SPOT HEATING

exact heating, drying, defrosting

Wilms®

Mobile, low noise, dustfree radiant heat. For indoor and outdoor use.

Spot heating means heating only where heat is really needed, in large halls, open sheds or even outdoors. Radiant heat travels in straight lines and – unlike hot air – does not automatically rise to the ceiling.

This allows the heat to be directed where required so avoiding wasted fuel in building up levels of warm air or in raising air temperatures of unused spaces. This is the advantage of spot heating.

The infrared heaters are operated with diesel or cerosene. This is more economic than the use of electricity or gas. All infrared heaters are operated without a chimney. The combustion is excellent and they require only a sufficient air exchange when used indoors.

The cardanic suspension of radiation disc with vertical adjustment on the Mini VAL respectively horizontal and vertical adjustment on the VAL 6 increases the versatile use. Large wheels allow easy transportation to every location.

Wilms infrared heaters are all season heaters. i.e. warming personnel, heating and drying garages, loading bays, hangars, factories, warehouses, sport halls outdoor events, construction sites. They also serve in emergencies like flood damage, frozen pipes, heating failure etc. Practically any situation where controlled heat is required.

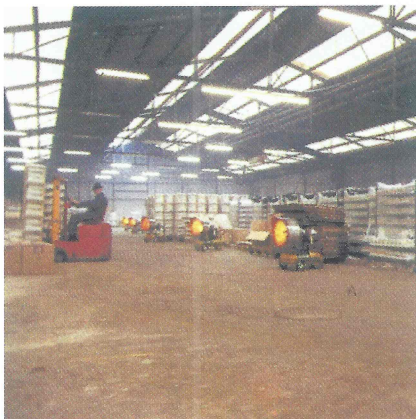

Wilms infrared heaters are manufactured to the highest standards and are second to none.

Rational heating of various work stations

Heating and drying on constructions sites

Work station heating in large halls

IR 25

Infrared-Heater 20,5 kW

- Radiant heater with air circulation
- Compact construction
- Portable
- Large fuel tank

Fuel gauge standard

Specifications

Type:	IR 25
Order-No.	1850025
Heat capacity	kcal/h/BTU/h 17.600/70.400
Consumption	Litres/h 2,3
Tank capacity	Litres 15
Voltage	V / Hz 230 / 50
Dimensions	LxWxH mm 530 x 370 x 560
Weight	kg 14

RH 35

Infrared-Heater 30 kW

- Heat transfer without air movement
- Vertically adjustable
- For exact spot heating
- Large fuel tank
- Easy to transport

Large handle for easy transport

Specifications

Type:	RH 35
Order-No.	1850030
Heat capacity	kcal/h/BTU/h 25.810/102.400
Consumption	Litres/h 2,98
Tank capacity	Litres 53
Voltage	V / Hz 230 / 50
Dimensions	LxWxH mm 730 x 710 x 965
Weight	kg 32
Accessories	room thermostat 6159440 Special thermostat for 6159438 use in high humidity

Mini VAL

Infrared-Heater 32,5 kW

- Heat transfer without air movement
- Vertically adjustable
- Stackable
- Compact construction
- Dustfree radiation

Fuel gauge standard on all infrared heaters

Specifications

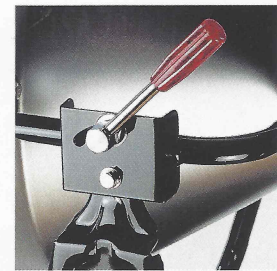

Type:	Mini VAL
Order-No.	1855000
Heat capacity	kcal/h/BTU/h 28.000/114.000
Consumption	Litres/h 3,2
Tank capacity	Litres 35
Voltage	V / Hz 230 / 50
Dimensions	LxWxH mm 710 x 655 x 810
Weight	kg 38
Accessories	room thermostat 6159440 Special thermostat for 6159438 use in high humidity

VAL 6

Infrared-Heater 40 kW

- Heat transfer without air movement
- Horizontally and vertically adjustable
- For exact spot-heating
- Large fuel tank
- Easy to transport

Vertically adjustable infrared heaters

Specifications

Type:	VAL 6
Order-No.	1853000
Heat capacity	kcal/h/BTU/h 34.400/140.000
Consumption	Litres/h 4,0
Tank capacity	Litres 40
Voltage	V / Hz 230 / 50
Dimensions	LxWxH mm 1200x620x930
Weight	kg 50
Accessories	room thermostat 6159440 Special thermostat for 6159438 use in high humidity

Wilms Heaters solve Winter problems

Electric heaters

Infrared and hot air
3 kW to 15 kW

Gas heaters

hot air
10,5 kW to 103 kW

Oil-fired space heaters

without chimney
20,5 kW to 100 kW

Gas/Electric dual fuel heaters

Gas: 7-25 kW, Electric: 3 kW

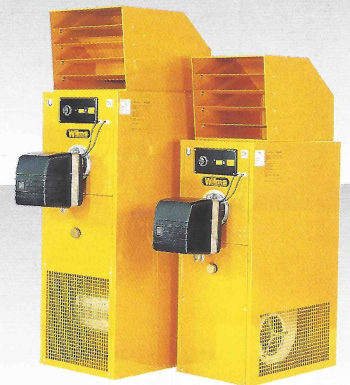

Oil or gas operated mobile heaters

with chimney
22 kW to 150 kW

Workshop heaters

with chimney
35 kW and 70 kW

Perfection is our aim.
